

Traditional Wooden Boatbuilding
10' Cedar on Oak Lapstrake Tender
2010 SPRING//FALL COURSES
March 21-28
August 15-22

Course Fee: \$650.00 + GST
A \$250.00 non-refundable deposit is required
to secure your spot

Courses run 8 days (Sunday to Sunday) and require a minimum of 6 students per course. The boat building program is a hands-on approach focusing on traditional wooden boat construction. The small class size offers the student opportunities for one-on-one instruction from our instructor, Eric Sandilands.

There are other options for building and/or repairing your own boat. If you have a project you would like to tackle Eric is the fellow to talk to. We also encourage you to become a member and volunteer for one of our wooden boat restoration projects.

For more information call (250)746-4955 Email: cwbs@classicboats.org
